On his annual artist residency to South Africa, Austrian artist **Walter Stach** has been in dialogue with local artists since 2008. His 2017 program not only continues the artistic exchanges and dialogues but premieres his new work with Marcus Neustetter. A selection of *Digital Dialogue* artworks, original drawings and a performance are showcased in an exhibition titled *The Dialogue*.

Walter Stach is at the Concept Store with his open studio 15-20 October 2-5pm daily.

About the Exhibition

Since January 2011 the artists have been posting drawings and art-objects in progress to each other, adding to them and returning them via courier. Artworks travel back and forth between Johannesburg and Vienna, evolving, until both artists consider these collaborative works finished. The courier exchange is made possible by the support of the Austrian Ministry for European and International Affairs and the Austrian Embassy in Pretoria and their diplomatic courier service.

The project and collaboration between the artists grew out of an artistic project during the European- (2008), Confederation- (2009) and World Cups (2010 and 2014). 2011 saw the presentation of the Courier-Dialogue artworks in Vienna and in 2012 in Johannesburg.
